

ALE "Republican Association of Public Associations of Hunters and Hunting Entities "Kansonar" and JSC "S. Seifullin Kazakh Agrotechnical University" of the Ministry of Agriculture of the Republic of Kazakhstan

THE FIRST INFORMATION LETTER

Dear colleagues!

The Republican Association of Public Associations of Hunters and Hunting Entities "Kansonar" and S. Seifullin Kazakh Agrotechnical University invite you to take part in the International Scientific and Practical Conference "**Intensification of hunting economy**", which will be held on April 18-19, 2019 in Astana (Kazakhstan).

Venue: S. Seifullin Kazakh Agrotechnical University, Astana, Pobeda Ave., 62 M.A. Gendelman Conference hall.

The employees of relevant organizations, scientists, lecturers, doctoral students, undergraduates and students involved in scientific research are invited to participate in the conference.

Conference topic

1. Biotechnology as the main factor of intensification of hunting economy;
2. Game breeding is a promising direction in hunting economy;
3. The use of modern achievements of science during the trapping, transportation and repatriation of wild animals to nature;
4. Prevention of infectious and invasive diseases in the hunting ground and hunting farms;
5. Hunting, as a tool for sustainable use of hunting resources;
6. The use of modern technologies in the accounting and monitoring of the animal world;
7. Economy of hunting enterprise.

Conference languages: **Kazakh, Russian, English.**

Articles and applications for participation (according to annexes 1.2) should be submitted to the organizing Committee by e-mail: laura_88a@mail.ru

Payment for participation in the conference as well as the publication of works are not charged. Proceedings are planned to be handed free of charge at registration, and electronic version will be sent to the electronic addresses of the conference participants.

Procedures for Formalizing an Article

Requirements for materials to be printed:

- Volume of the article up to 8 pages.
- Text editor-Microsoft Word.
- Format - A 4.
- Margins: top - 5,7 cm, bottom - 5.7 cm; left -4,9 cm; right – 4,9 cm
- Font-Times New Roman.
- Font size – 11 PT.
- The line interval - single.
- Indent – 1.25.
- Orientation - portrait, without placing the page, without hyphenation, without page references.
- Formula editor - Microsoft Office (MathType).
- Graphics and drawings - Grayscale, without color fill. Crosshatching is possible. Drawings and graphs should be numbered and have a caption (below the figure or below the graph).
- Tables are typed in the same font as the main text, size 11 (decrease in a size to the 9th point is allowed).

A reference is made to each table in the text. The word "table" is printed in the text in abbreviated form ("tab."), it isn't written over the table. Number of the table is specified before table heading. Tables are followed by headings and are inserted into the text after the paragraph with the first reference to it.

Names of table graphs are printed with a capital letter, and subordinates – with lower case.

The size of the table shouldn't exceed the size limited by fields of the page.

If the table is located along the page, its heading should be on the left.

If the digital data is not shown in some columns of the table, a dash is placed in the column.

- **Abbreviations of words** (except generally accepted) in the text, tables and picture caption are not allowed.
- **References** to information sources are given in the text by the Arab figures in square brackets.
- **Structure of the article:**

1. **UDC** is placed in the left corner of an interval in bold (see, for example, teacode.com/online/udc or udk-codes.net).

2. **Title of the article** through the interval, centered, without indentation, in capital letters, in bold type.

3. **Information about the author** published in article is submitted on each coauthor of the scientific article: initials and a surname (italics, bold print), the place of work, the city, the country (alignment on the center, italics). E-mail address.

4. **Abstract** contains a description of the main topic, the purpose of the work and its results. The annotation contains the novelty of this article compared to other, related topics. The recommended average annotation size is 500 characters (width alignment, font size 10, first line without paragraph indentation).

5. **Key words and phrases** - from three to seven.

6. Further: paragraphs 2, 3, 4, 5 are duplicated in two other working languages of the conference (for non-residents of the Republic of Kazakhstan the translation of these paragraphs into Kazakh is carried out by the organizing Committee).

7. **Text of article** - alignment on width.

8. **List of references** is made out according to state standard specification 7.1-2003 and provided in alphabetical order in the end of article in the form of the numerated list. The name of the section "List of Information Sources" is aligned to the center without paragraph space, through an interval from the main text. Sources are printed by the same font size, as the main text with a paragraph ledge of 1.2 cm

The materials provided to the press shall be accompanied by **the author's statement** of the established sample (Appendix 1).

Other provisions

The official language of the conference as the language of international communication is Russian.

The organizing Committee reserves the right to refuse the publication of articles that do not correspond to the topics of the conference and not designed according to the requirements. Articles are published in the author's edition.

By the beginning of the conference, it is planned to publish a collection of conference materials (ISBN, BBK).

On the conference issues, please contact us by e-mail: leontyevs@yandex.ru and laura_88a@mail.ru
